

Distance Education Extension Program

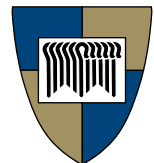

DR. JOHN MACARTHUR
President, The Master's College

Greetings in the matchless name of our Lord and Savior, Jesus Christ. We at The Master's College believe that God has raised up the College to be a servant of the conservative evangelical church by assisting it in equipping its membership for His service (Eph. 4:11-12). We rejoice in the opportunity that God has given us to provide college-level biblical and theological education, as well as vocational preparation in a number of subject fields. Our Distance Education Extension Program (DEEP) is designed to enable members of your church and other believers in your community to take accredited college-level biblical studies and selected general education courses in a distance education format.

Our goal is to assist local churches in meeting the range of education needs of their members. We plan to increase the number of available DEEP courses to about 20, including courses in Christian Theology, Introduction to Biblical Counseling, The Life of Christ, World History, U.S. History, U.S. Government, Economics and English and American Literature. We have designed DEEP courses so that they can be administered in a group setting by a qualified course coordinator. We have sensed a growing interest to begin local church-based Bible Institutes and believe this could be a useful resource for churches desiring to move in this direction.

ABOUT TMC DEEP

The Master's College is a conservative, evangelical Christian, comprehensive baccalaureate institution. Our mission is to advance the Kingdom of the Lord Jesus Christ by equipping men and women for excellence in service to Him in strategic fields of ministry and vocation worldwide. TMC offers Christian college students an opportunity for higher education in accord with biblical truth. Such an education is intended to stimulate students to think about the great issues of life such as purpose, morality, and values as revealed to man through the inspired Scriptures, through the natural creation, through human history, and ultimately in the Son of God, our Lord Jesus Christ.

What is TMC DEEP?

TMC DEEP is our new **Distance Education Extension Program** which allows you to receive a TMC education from anywhere in the world—even the comfort of your own home. Our goal is to use technology to provide the opportunity for a larger circle of conservative evangelical believers on a worldwide basis to take a variety of Biblical Studies courses, as well as college-level general education courses, taught by TMC faculty from a distinctively biblical worldview. DEEP provides courses (but not complete degree-programs) to enrich local church membership and provide a complement to the more advanced study degree-program completed on-campus at TMC.

Who can benefit from TMC DEEP?

Individuals who we believe could benefit from DEEP classes include church members desiring a rigorous study of the scriptures, college students needing selected general education courses for transfer purposes, academically strong 12th grade students capable of taking college-level classes, and college-age international students being mentored by a missionary.

What courses are available?

Available courses will include a selection of the following:

New Testament Survey I
Biblical Counseling
Foundations of Science
Old Testament Survey I

Old Testament Survey II
New Testament Survey II
Theology I

How will the courses be formatted?

DEEP courses are delivered over a ten week period using a combination of DVD and internet technology. Course lecture presentations are delivered via DVDs, and students access web pages on the College's secure website to obtain syllabus and other handout information, submit course assignments, participate in threaded discussions, and take tests. It's that easy!

Can I take courses for college credit?

Courses may be taken for credit, or they may simply be audited. There is an admissions process for TMC DEEP, and those planning to take courses for credit must meet the same admissions requirements as our traditional undergraduate students. Admission to the DEEP program does NOT guarantee future admission to the College's traditional undergraduate program.
